Amazing Worlds extra

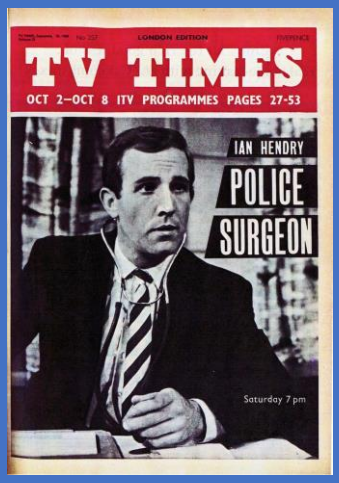
HOT SNOW AUDIO REVIEW

Thought how they going to translate to audio as i noticed did not have to change lot from the TV version , you get feel the avengers show of its early roots of underground crime and steed is man mystery at the begging and starts as Dr David keel show and no one at time the show have cult following and go though nanny changes this show that run from 1961-68 and almost lost its early episodes and find how diffident the first series was compare to the crazy plots of the later ones are .I enjoy the first adventure as big finish have done great job feeling the missing gaps to this lost story also you will find first part of hot snow on tunnel of fear that still exist to enjoy DVD I am happy with audio performance of the Big Finish avengers cast to bring life back the avengers .

This ware the Avengers begin its roots ware Patrick finds his feet and start of add humour and still contain believable plots were later ones flay of walls. One the best episodes of series three from 1963 with well written charters as it reflects moods of the cold war in Britain holding a truth's by using the arts and sports a sale peich to hold the peace between countries. ware always someone try to steer trouble to make money in to war as Cathy and steed safe the day find out what's happening behind the scenes a link more info below. what amazes me with the AVENGERS done well sold world-wide that some episodes not shown in the US until 1991 at time these early adventures have been restored to way they were first transmitted.

The Avengers Forever: Concerto

POLLICE SURGEON



This is worth look of lost rare series only one episode exist am glad we have this as many British television shows in the 1960s have been wiped or dumped right through the 1970s .

Police Surgeon looks a great show not dated compare to some shows and characters come across real and believable gritty of real feel of the 1960s before Z CARS from the BBC .

Ian Hendry performances is just great .

can be found on THE AVENGERS 1961- 1963 DVD box set

The Avengers – interview By D Anderson

1. what made you decide do the book

Roy Bettridge (1 - I decided to do the book because it had never been done for The Avengers. A quiz book is out there on many shows but I didn't think that there was one out there for The Avengers which upset me because it's a fantastic show and deserves everything in the world 😁 so I contacted the rights holders and a licence was agreed for me to produce the book.

2, is there facts had to update because of once lost episode that is now find

Roy Bettridge (2 - No facts needed updating in regards to the lost episodes - I completed The series 1 section with the existing episodes and The Big Finish adaptations that are available. The ones that exist (Hot Snow part 1, Girl on the Trapeze, The Frighteners and Tunnel of Fear) have more questions about their episodes because they exist and people can find the answers watching them 😊😊

3. when you first heard of the avengers

3 - The Avengers came into my life in 1995 when I was 9 years old. I had already seen a BBC 2 repeat of The New Avengers and loved it. My late father then told me that Channel 4 was showing the original series at 6pm on Tuesday evenings. I sat to watch the show and was hooked from the moment the theme began. I've been an avid fan now happily for nearly 30 years 😊😊

4. looked up other books you done the book flood sounds like something out of Doomwatch environment disaster show might have done a classic BBC SF

Roy Bettridge: Flood is about a natural disaster in a small seaside town and how one man tried to save the town from the disaster
